⚠ Please note, however, that the respective installation directory must not contain any space characters!

Finally choose "install" to complete the installation (Figure 3).

4. Install program

Figure 3: Finish installation

FIRST START OF Z88AURORA

To start the program either click the desktop icon  „Z88Aurora V3“ or open the program via Start → „Z88Aurora V3“ → „Z88Aurora V3. If you have not installed the desktop and start menu entries, you can start the program directly via Windows Explorer:

„[chosen_installation_directory]\win\bin\z88aurora.exe“.

To adapt Z88Aurora more easily to your specifications, you are asked to enter the directories of the support modules and programs you want to use for Z88Aurora, when you start the program for the first time.

For this purpose, a dialog window opens, where you can enter the respective programs (Figure 4):
